### **What is Bokeh**

September 22nd, 2018 - 1 What is Bokeh Basically bokeh is the quality of out of focus or "blurry" parts of the image rendered by a camera lens " it is NOT the blur itself or the amount of blur in the foreground or the background of a subject The blur that you are so used to seeing in photography that separates a subject from the background is the result of

shallow "depth of field" and is generally
